Elektraktion

In the year 1991, BC (Before Comicraft), Richard Starlings found himself working for Graphitti Designs, designing the sequel to Frank Miller's BARBÉDEVIL — ÉLÉKTRA LIVES AGAIN! This was long before Macintosh computers, so

Rich sat down with a pencil and vellum to render an alphabet that could be used as the basis for the text that was needed... Those sketches languished in a drawer for nearly thirty years, until Comicraft's John Roswell dusted off those old letterforms and Elektraktated a font based on those designs, a font we HAD to call ÉLÉKTRAKUTION!

DINGBAT FONTS & CLIP ART

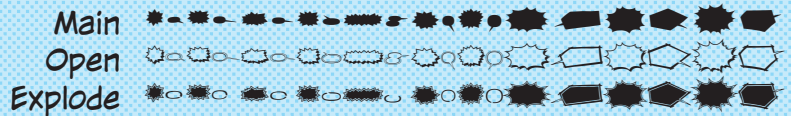

Your characters aren't merely angry -- something else informs their monologues, something powerful and demanding. Their pronouncements bristle with power and energy, much like the cosmic gloves they wear on their clenched fists! Their words are

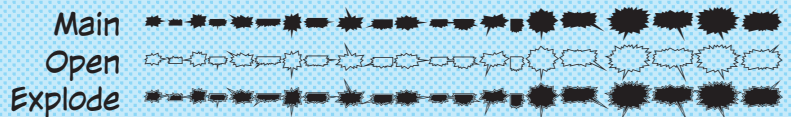

laced with contempt, and their enemies stand in awe of these Titans as they deliver their condemnations of all mankind, because their balloons are sharp, spiky and dangerous to touch!

Comicraft Outburst is perfect for dramatic exhortations in stormy scenes wherein characters seem to be screaming and yelling at each other. Apply Comicraft Powerburst to fill your comics with passion, tension or an insane desire to TAKE OVER THE WORLD!
